Irish Mathematical Society
Cumann Matamaitice na hÉireann
BULLETIN Number 48 Summer 2002
ISSN 0791-5578

Contents

Notices from the Society

Officers and Local Representatives .......................... 1
Applying for IMS Membership .............................. 2
Honorary Members ........................................ 3
Minutes of the Ordinary Meeting,
19 December 2001 and 11 January 2002 ................... 4

Announcements of meetings and conferences .............. 7

Departmental News ........................................... 9

Obituaries .................................................... 11

Research Notes

Nadia Boudi:
Banach Algebras in Which Every Left Ideal
is Countably Generated ................................. 17

A. J. Calderón Martín and C. Martín Gonzáles:
On Lie Derivations of 3-Graded Algebras ................. 25

Jim Gleason:
On a Question of Ameer Athavale ......................... 31

W. J. Ricker and M. Váth:
An Extension of a Commutativity Theorem of M. Uchiyama .... 35

Miscellanea

Bernard Beauzamy:
Real Life Mathematics .................................... 43

John O’Donoghue:
Numeracy and Mathematics .............................. 47

Randall J. Swift:
A Stochastic Predator-Prey Model ....................... 57

Book Reviews .................................................. 65

Judy Grabiner:
Creators of Mathematics: The Irish Connection edited by Ken Houston
