

GALWAY GROUP THEORY CONFERENCE

The annual I.M.S. Mini-conference on Group Theory was held in U.C.G. in May. The speakers were Dr. John Lennox (Cardiff), Professor Sean Tobin, Dr. Michael Barry and Dr. Johannes Siemons. Each year, this is a most enjoyable and informative get-together of the algebraists in the country and Professor Martin Newell and his colleagues warmly deserve our gratitude for organising it (and performing the annual miracle with the weather).

DUBLIN INSTITUTE FOR ADVANCED STUDIES

CHRISTMAS SYMPOSIUM

Monday and Tuesday, 21st and 22nd December 1981

MAIN TALKS

MONDAY

Dr. A.I. Solomon (Open University) "Applications of Lie
Algebras to Many-Body Problems".

TUESDAY

Dr. D. McCrea (U.C.D.) "The Structure of Singularities in
Space-Time".

Prof. A.G. O'Farrell (Maynooth) "The Approximation of Functions
of Two Variables by Sums of Functions of One Variable".

Dr. R.S. Ward (T.C.D.) " PDEs and Geometry: Weierstrass,
Whittaker and Yang-Mills Monopoles".

COMPEL

THE INTERNATIONAL JOURNAL FOR COMPUTATION AND MATHEMATICS IN ELECTRICAL AND ELECTRONIC ENGINEERING

AIMS AND SCOPE

COMPEL exists for the discussion and dissemination of numerical and analytical methods in all areas of electrical and electronic engineering. The main emphasis of the papers is on the methods. Applications of methods to particular engineering problems may be given to illustrate their use in practice.
