

School of Mathematics

Course 2S1 — Mathematics for Science Students 2001-02
(SF Mathematics as a whole subject within the Natural Science Moderatorships)

Lecturer: Dr. Ralph Kenna

Requirements/prerequisites: Course 1S

Duration: 24 weeks

Number of lectures per week: 3

Assessment: None

End-of-year Examination: One 3-hour annual examination

Description:

- Functions of several variables. Vector calculus. Differential operator and its properties.
Anton (Calculus): Chapter 15.
- Probability and Statistics
Kreysig: from Chapter 22-23 (excluding topics covered in 1S).
- Multiple integrals, change of variables, Jacobians. Line, surface and volume integrals.
Gauss's theorem and Stokes' theorem.
Anton (Calculus): Chapters 16–17.
