Software Development, Project Management

General Experience

Treasurer, Public Relations Officer and General Officer for
TCD Physics, TCD Maths and TCD Meditation societies
Maths and Computing Mentoring for young adults
Grading homework for 1st year university students

About

I'm easy going, working well in teams or on my own. I'm a very quick learner, especially with technology. My educational background has made me very good at analysis and problem solving. I enjoy playing and thinking about computer and board games. I listen to "progressive" music, which is about as cool as it sounds. I read trashy fantasy/sci-fi novels and watch trashy action films. I prefer walking to public transport, in case you were curious.
