ALL QUESTIONS TO BE ATTEMPTED

Please write your name and student number below. The exam is multiple choice, answer each of the questions by clearly circling which one of the five possible answers: A, B, C, D or E, you think is correct. Do not mark more than one answer to each question. If you make a mistake, cross out your answer clearly and write your new answer immediately to the left of the question number. Any further mistakes should be corrected by crossing out the answer you now think is wrong and writing your new answer to the left of the old one. Do not write anything else on these sheets, there is rough paper provided for your calculations. No marks will be deducted for an incorrect answer.
